TOTAL REBATE REQUESTED:				\$

Residential lighting rebates shall not exceed 75% of cost.

(Over)

Making sure you get as much light output as you need:

Light output from a bulb is measured in "lumens." When you're shopping for a compact fluorescent Bulb "CFL" to replace a standard bulb, find the bulb you normally buy and find the lumen output rating on the package. Then go to the CFL bulbs and find one that has a similar lumen output. Use the table below to help you choose the right bulb.

How do I know which CFL to buy?

The least expensive CFL may not be the best buy. Customers often find that more expensive bulbs last longer than cheaper ones. Be sure to look over the package carefully before you buy. The packaging should indicate where the bulb will perform up to your expectations. For example, the packaging should indicate whether the bulb is suitable for enclosed fixtures, cold locations, or damp locations. With a few exceptions, CFLs should not be used with dimmers, occupancy sensors, or photocells unless they are specifically rated for those uses.

CFL bulbs must be ENERGY STAR qualified to be eligible for this offer.

"Regular Bulb" Watts	Equivalent Compact Fluorescent ("CFL") Watts
60	14-17
75	18-21
90	22-23
100	24-26
150	35-40

Upon signing this agreement, customer acknowledges and agrees to the following:

This rebate offer may be discontinued at any time by the City of Ukiah (City) and is available on a first come first serve basis while funds are available. The City reserves the right to inspect all installed lighting product. By signing this agreement, customer certifies under penalty of perjury that this information is true and correct under the laws of the State of California. Customer hereby acknowledges that he or she is familiar with, and agrees to, the standards regarding this program. Customer also certifies that the product was installed at the address listed on this form within the City's electric utility service territory and is subject to a pre and post installation inspection. Customer agrees to release the City from any liability associated with the selection, installation, or operation of the product which was purchased under this program, and recognizes that in no way is the City responsible for the safety or satisfactory performance of this equipment. The City will not accept any liability caused by customer's participation in this program. Customer understands that this information may be shared with other utilities as well as included in various reports. Please allow 8-10 weeks for processing. **Rebate requests must be submitted within 6 months after purchase.**
