

Save \$

Energy Efficiency & Solar Programs

The City of Ukiah is helping their customers save money and energy by offering rebates to customers that install energy efficient equipment. Rebates are available to help you install the following measures:

Energy Star Appliance Rebates

Refrigerators
Dishwashers
Clothes Washers
Room Air conditioners

Note: Must have electric water heater to qualify for dishwasher and clothes washer rebates.

Residential Heat Pump and Energy Efficient Air Conditioning Rebates

Energy efficient heat pumps and central air conditioners reduce energy use and improve the comfort of your home.

Residential Weatherization

Adding insulation, high efficiency replacement windows, and window treatments to your home will save energy and make your home more quiet and comfortable.

Note: Home must have electric heat or central air conditioning to qualify.

Residential Lighting

Compact Fluorescent Light bulbs (CFL's) use 75% less energy than a standard light bulb, and last up to 10 times longer.

Commercial Lighting

Excellent rebates to help commercial customers install new, efficient lighting equipment to save energy and improve the overall quality of the lighting in their facilities.

Solar Photovoltaic (PV)

Use the sun to generate your own electricity. Electricity generated by your solar PV system directly reduces the amount of energy you need to purchase from your utility. Tax credits are also available to help you with the installation of your PV system.

For rebate applications and more information on these and other Energy Efficiency programs:

- **Stop by the City of Ukiah's Customer Service counter at 300 Seminary Avenue, Monday through Friday, 8:00 a.m. to 5 p.m.**
- **Call our Energy Efficiency hotline at (707) 467-5700.**
- **Visit our website at: www.cityofukiah.com**

Renewable and Energy Efficiency Incentives

See Rebate Application for qualifying details

	Rebate	Unit Of Measure	Rebate Limitations
Central A/C			
Central AC -- 14.5 SEER or higher	\$35.00	Per Ton	n/a
Central AC -- 15.0 SEER or higher	\$50.00	Per Ton	n/a
Central AC -- 16.0 SEER or higher	\$75.00	Per Ton	n/a
Central AC -- 19.0 SEER or higher	\$200.00	Per Ton	n/a
Evaporative Cooled Central AC -- 14.0 EER or higher	\$350.00	Per Ton	n/a
Evaporative Cooler: Direct	\$75.00	1000 SF	n/a
Evaporative Cooler: High Efficiency Direct/Indirect	\$100.00	1000 SF	n/a
Evaporative Cooler: Indirect	\$50.00	1000 SF	n/a
AC or Heat Pump Tune-up With Certified Refrigerant Charge	\$150.00	Per Unit	One (1) Rebate per Household Every Three (3) Years
Heat Pumps			
Heat Pump -- 14.5 SEER, 8.2 HSPF	\$200.00	Per Ton	n/a
Heat Pump -- 14.5 SEER, 8.5 HSPF	\$250.00	Per Ton	n/a
Heat Pump -- 15 SEER, 8.2 HSPF	\$300.00	Per Ton	n/a
Ground Source Heat Pump	\$350.00	Per Ton	n/a
AC or Heat Pump Tune-up With Certified Refrigerant Charge	\$150.00	Per Unit	One (1) Rebate per Household Every Three (3) Years
Residential Equipment			
New Clothes Washer: Electric Water Heating	\$75.00	Per Unit	n/a
New Dishwasher: Single-family – Electric Water Heating	\$60.00	Per Unit	n/a
New Energy Star Refrigerator	\$75.00	Per Unit	n/a
* Refrigerator Decommissioning & Recycling - Conditioned space (payment to customer/payment to recycler)	\$50/150	Per Unit	n/a
* Refrigerator Decommissioning & Recycling - Unconditioned space (payment to customer/payment to recycler)	\$50/150	Per Unit	n/a
New Energy Star Freezer	\$50.00	Per Unit	n/a
* Freezer Decommissioning & Recycling - Conditioned space (payment to customer/payment to recycler)	\$50/150	Per Unit	n/a
* Freezer Decommissioning & Recycling - Unconditioned space (payment to customer/payment to recycler)	\$50/150	Per Unit	n/a
New Energy Star Room Air Conditioner	\$75.00	Per Unit	n/a
New Variable Speed Pool Pump	\$125.00	Per Unit	One (1) Rebate per Household Every Three (3) Years
Solar Photovoltaic Systems			
Solar PV Systems - SB1 - \$1.96 per AC Watt	\$1,960.00	Per AC kW	Max: \$7,000 Residential; \$25,000 Commercial
Residential Lighting			
CFL: Screw-In (<=15W)	\$2.50	Per CFL	Max: 75% of Cost
CFL: Screw-In (16-24W)	\$2.50	Per CFL	Max: 75% of Cost
CFL: Screw-In (>=25W)	\$2.50	Per CFL	Max: 75% of Cost
LED Holiday Lights (100 bulb string)	\$10.00	Per String	Max: 75% of Cost
Residential Weatherization - Homes w/Electric Heat and/or Central A/C			
Ceiling/Attic Insulation -- R-0 to R-38 or higher	\$0.65	Per Sq/Ft	n/a
Ceiling/Attic Insulation -- some insulation to R-38 or higher	\$0.35	Per Sq/Ft	n/a
Wall Insulation -- R-0 to R-13 or fill cavity	\$0.75	Per Sq/Ft	n/a
Shade Screen -- shading coefficient .50 or lower	\$0.75	Per Sq/Ft	n/a
Window Film -- shading coefficient .50 or lower	\$0.75	Per Sq/Ft	n/a
Replacement Window -- U-value .35 or lower, SHGC .40 or lower	\$1.50	Per Sq/Ft	n/a
Blower door guided air sealing	\$50.00	Per House	n/a
Duct Insulation -- R-0 to R-8 or higher, duct sealing per Title 24	\$250.00	Per House	n/a
Duct Sealing (only) -- per Title 24	\$150.00	Per House	n/a
Roof radiant barrier	\$0.35	Per Sq/Ft	n/a
Residential Electric Water Heaters			
New High efficiency electric water heater	\$100.00	Per Unit	n/a

Note: Blue text denotes new measures.
